- **Adverse event following immunisation (AEFI)** is an untoward medical event which follows immunisation and does not necessarily have a causal relationship with the administration of the vaccine. The adverse event may be an unfavourable or unintended sign, abnormal laboratory finding, symptom or disease.

**Provider please note:**

- Include information regarding open communication with an affected consumer, including date completed
- Include your findings in the actions you have taken to prevent reoccurrence
- Update this section of the form over time as incident investigation is progressed and then closed

**Please provide as much detail of the incident as possible:**

What went wrong? Were there any contributing factors? What were the immediate actions taken? What advice were you given and from whom? What changes will you be making to prevent this happening again? What follow up has been arranged for the consumer?

If the consumer received an early dose, please provide the number of days between doses.
