

## Contact List: Regional Pharmacy Engagement Leads for Immunisation Services

This document contains contact details for the regional Pharmacy Engagement Leads. These leads are available to support community pharmacy providers in establishing, expanding, and maintaining immunisation services.

We encourage pharmacies considering offering childhood vaccinations (especially vaccinations from 6-weeks) to engage with their Regional Pharmacy Engagement Lead early in the process of considering offering the service. This is to ensure that the site is suitable, for the Lead to facilitate with the onboarding requirements (site readiness and pharmacist upskilling training), and that there is a local need for the pharmacy to offer all immunisations on the National Immunisation Schedule.
