

NZHTS release note for July 2025

16 July 2025

This release note covers the monthly release of new content to the NZ Health Terminology Service (NZHTS) for July 2025.

NZHTS is the health sector's one-stop source of standard terminologies and code sets for high quality digital health records and interoperability. NZHTS is a free service, available to all New Zealand health entities and their industry partners. Explore and download the content you need.

Learn more about NZHTS and how to use it on our website and [Digital Services Hub](#).

New content this release

- National Occupation List (NOL) 2.0 update
- Iwi affiliation codes V2.1.0 update
- Pharmacode with ATC information
- NZ Medicines Terminology (NZMT) July 2025 release

National Occupation List (NOL) version 2.0 update

The [National Occupation List \(NOL\)](#) is an independent New Zealand-focused occupation classification. Comparable but tailored occupational classifications for Australia and New Zealand, were published by the Australian Bureau of Statistics (ABS) and Stats NZ respectively on 8 October 2024. NOL is now at version 2.0 (released 1 July 2025).

Example query:

[https://nzhts.digital.health.nz/fhir/ValueSet/\\$expand?url=https://nzhts.digital.health.nz/fhir/ValueSet/national-occupation-list](https://nzhts.digital.health.nz/fhir/ValueSet/$expand?url=https://nzhts.digital.health.nz/fhir/ValueSet/national-occupation-list)

Iwi affiliation codes V2.1.0 update

Iwi affiliation codes from the [Iwi and iwi-related groups statistical classification V2.1.0](#) published by Stats NZ. This version, updated on 11 March 2025, reflects the latest changes—including the renaming of 0901 Ngāti Apa (Rangitikei) to Ngā Wairiki Ngāti Apa.

Example query:

[https://nzhts.digital.health.nz/fhir/ValueSet/\\$expand?url=https://nzhts.digital.health.nz/fhir/ValueSet/iwi-code](https://nzhts.digital.health.nz/fhir/ValueSet/$expand?url=https://nzhts.digital.health.nz/fhir/ValueSet/iwi-code)

Pharmacode with ATC information

Pharmacode content is now enhanced with [Anatomical Therapeutic Chemical \(ATC\) classification](#) information to support the Ministry of Health by linking Pharmacode entries to their corresponding ATC codes.

Example query:

[https://nzhts.digital.health.nz/fhir/ValueSet/\\$expand?url=https://nzhts.digital.health.nz/fhir/ValueSet/pharmacode-with-atc](https://nzhts.digital.health.nz/fhir/ValueSet/$expand?url=https://nzhts.digital.health.nz/fhir/ValueSet/pharmacode-with-atc)

NZ Medicines Terminology (NZMT) July 2025 release

NZMT is our standard terminology for medicines identification, underpinning the NZ Universal List of Medicines (NZULM) and New Zealand Formulary (NZF).

We source NZMT data once per month from NZULM to enable NZHTS to serve simple NZMT code set lookups.

NZF has a fully featured FHIR API for access to NZULM/NZF content for prescribing and dispensing, medicine reconciliation and other more complex use cases.

Refer to the NZMT page on our website for an overview of the NZMT concept model, value sets and example queries.

Upcoming releases

New content in following releases will include:

- NZ Medicines Terminology (NZMT) August 2025 release
- ACC simple reference set
- Orphacodes
- Aotearoa Immunisation Register (AIR) code sets
