Fionnagh Dougan

National Director,
Hospital and
Specialist Services

Hospital & Specialist Services

- Introducing Hospital and Specialist Services
- Leadership announcements and recruitment

Primary Care – Summer Planning

- Primary care planning
- Summer wellness campaign

Safe-as summer – Campaign launch

- The aim is for people to be prepared – filling prescriptions, having RATs and face masks handy.
- When travelling kiwis are encouraged to call 0800 numbers for non-acute healthcare and to check which health services are open where they're going.
- Also a safe-as summer checklist will remind us about being up-to-date with vaccinations, boosters, eligibility for antivirals, testing and isolation.
